Mirror Finishes

Reflecting the style

Alucomex® Mirror is our aluminum composite panel that offers you a 4 year warranty. Made with mirror-processed aluminum layer, making it an ideal product for low maintenance and long durability.

Mirror finishes provide light and spaciousness to your spaces, it is even highly aesthetic for the use of lattices.

Well known for its quality, can be used on floors display, luxury spaces, interior walls and exterior details.

It's more malleable and resistant than a traditional mirror since it can be rolled for curved spaces and in addition, Alutec® products offer you advantages like: lightness and easier installation.

Features

Finishes	Size (In)	(Ft)
Anodized	48"x120"	4 x 10
Aluminum Thickness		Total Thickness
